HPT

The DuraClass **HPT** is the undisputed workhorse for those who haul for a living. HPT delivers more payload on the job and more profit to your bottom line. With its interlaced understructure and vertical side braces, the HPT is the industry benchmark for durability, productivity, and resale value at trade-in time. Like all Premium Heavy Duty DuraClass dump bodies, the HPT uses high tensile steel throughout for superior strength and lighter body weight than comparable dump bodies.

HEAVY DUTY DUMP BODY (HPT)

Inside Length	13'	14'	15'	15'	16'	17'
Width	7'	7'	7'	7'	7'	7'
Body Capacity, yards	10-12	10-12	10-12	12-14	12-14	12-14
Material	10 ga					
Side/Front/Rear Height, in.	38/52/46	36/52/44	32/52/40	38/52/46	36/56/44	34/62/42
Hoist Model	HPT53-120		HPT53-130		HPT63-140	HPT63-150
Weight (Includes Hoist), lbs	3746	3978	4013	4107	4704	4760

DuraClass HPT and 316 feature fully enclosed front corner posts.

316

The DuraClass **316** dump body takes style to a whole new level, with its sleek, clean horizontal side braces. But style has function in the 316. Deep flanged longmembers eliminate the need for crossmembers. As a result, the 316 is easier to keep clean in harsh environments where slush and salt buildup take their toll on hard working equipment. When Mother Nature is at her worst, DuraClass is at its best.

HEAVY DUTY DUMP BODY (HPT-316)

Inside Length	14'	15'	16'	17'	18'
Width	7'	7'	7'	7'	7'
Body Capacity, yards	12-14	12-14	15-17	16-19	17-20
Material	3/16" floor & rear; 10 ga sides & front				
Side/Front/Rear Height, in.	42/54/50	38/54/46	44/56/52	44/64/52	44/68/52
Hoist Model	HPT53-120	HPT53-130	HPT63-140	HPT63-150	HPT63-160
Weight (Includes Hoist), lbs	4412	4597	4880	5020	5160

DuraClass Heavy Duty bodies come with full depth corner posts and enclosed tailgate hardware, another premium feature you won't find anywhere else in the industry.

HPTB

DuraClass **HPTB**, "the TUB" body, is a lightweight champ in a heavyweight world. An elliptical body using high tensile steels, crossmemberless understructure, and a body sidewall without extra bracing add up to an exceptional payload-to-weight ratio. The HPTB body's rounded floor and low center of gravity give it the strength and stability for heavy hauling. Loads are discharged cleanly from the curved body shell. Like all premium DuraClass bodies, you can choose the specific steel you need for the body sides, the floor, and the subframe.

HEAVY DUTY DUMP BODY (HPTB "TUB")

Inside Length	14'	15'	16'	17'	18'
Width	7'	7'	7'	7'	7'
Body Capacity, yards	10-12	12-14	15-17	16-19	17-20
Material	3/16" HI-TEN				
Side/Front/Rear Height, in.	38/54/44	38/54/46	44/56/52	44/64/52	44/68/52
Hoist Model	HPT53-120	HPT53-130	HPT53-140	HPT53-150	HPT53-160
Weight (Includes Hoist), lbs	4309	4790	5171	5446	5600

Greaseable rear hinges have the widest bearing surface and largest pin diameter in the industry.

PREMIUM STEEL CONSTRUCTION

All Heavy Duty DuraClass dump bodies have Hi-Tensile, minimum 45,000 psi steel. Additional steel and stainless steel options are available.

ADDITIONAL BODY OPTIONS

- Aluminum (Cab Shields & Tailgates only)
- Sloped Tailgate
- Reverse Asphalt Taper
- Sloping Side Panels
- Hi-Lift Tailgate, Air or Hydraulic
- Dual Action Side Swing Tailgate
- Body Side Steps and Handles
- Tarp Rails and Walk Rails
- Variety of Sliding Door Options
- Custom Side and Tailgate Heights
- Custom Body Bracing
- Air Operated Hoist Controls
- Variety of Cylinder/Doghouse Configurations

All bodies shown with some optional equipment. Models and options are subject to change without notice.
